

THE AI EMPLOYEE YOU'LL NEVER WANT TO FIRE

HireAI

One Employee. Every Role. 24/7.

BOOK A FREE DEMO

01 - THE PROBLEM

Hiring is *broken*.

VAs quit without warning. Employees get sick. Freelancers forget your context every single time. And hiring? It costs a fortune before anyone even starts working.

You need reliable help that sticks around, remembers everything, and doesn't call in sick on Monday.

₱15,000–25,000/mo

FULL-TIME EMPLOYEE
+ SSS, LEAVES, 13TH MONTH, TRAINING

₱5,000–15,000/mo

FREELANCER VA
UNRELIABLE, NO CONTEXT, DISAPPEARS

Limited Hours

PART-TIME HELP
NOT THERE WHEN YOU NEED THEM

02 — THE SOLUTION

Meet Your *AI Employee*.

Not a chatbot. Not software. A dedicated digital employee built for YOUR business. It remembers everything. Gets smarter every day. Works 24/7. No vacation. No sick days. No excuses.

- **Dedicated instance** — not shared with anyone. It's YOUR employee.
- **Learns your business** — remembers your products, clients, preferences.
- **Proactive** — flags things before you even ask. Doesn't wait around.
- **30-day money back guarantee** — no risk, no lock-in.

Everything your business *needs*.

Google Workspace

Gmail, Calendar, Drive, Sheets, Docs. Reads your email, manages your schedule, organizes your files.

Document Expert

Excel, Word, PDF creation and analysis. Creates invoices, reports, proposals on demand.

Website & App Builder

Full websites and web apps. No coding needed. Your AI builds it from a conversation.

Web Research & Lead Gen

Competitor analysis, real-time web browsing, market research. Finds leads while you sleep.

Creative Tools

Image generation, slide decks, content writing. Social media posts, ads, presentations.

Communication

Telegram, WhatsApp, Discord, Slack. Chat naturally. Works wherever you already are.

04 - SUPERCHARGED ENGINES

Not off-the-shelf *AI*.

HireAI isn't ChatGPT with a fancy wrapper. It runs on 6 proprietary engines that make it smarter, more proactive, and more useful than any AI tool you've tried before.

Each engine works together so your AI employee actually thinks, remembers, and acts — not just responds.

2nd Brain Engine

Stores everything about your business — products, clients, processes, preferences.

Proactivity Engine

Flags things before you ask. Checks email, calendar, deadlines — on its own.

Better Memory Engine

Learns from every correction. Never makes the same mistake twice.

Better Coding Engine

Builds real apps, websites, and tools. Not just templates — actual working software.

Image Generation Engine

Creates visuals on demand — social media graphics, ads, logos, presentations.

Managed & Secure

Dedicated VPS, routine hardening. Your data stays yours. Always.

+

05 - HOW IT WORKS

Three steps. *That's it.*

1

Tell us about your work

Quick onboarding call. We learn your business, your tools, your style.

2

Meet your AI Employee

Provisioned in 24 hours. Fully configured for your business.
Ready to go.

3

Just work together

Chat naturally. Delegate tasks. It gets smarter every single day.

No IT needed

No setup required

No learning curve

06 - THE MATH

The numbers don't *lie*.

FULL-TIME EMPLOYEE
