

OUTPUT SHOWCASE · APRIL 2026

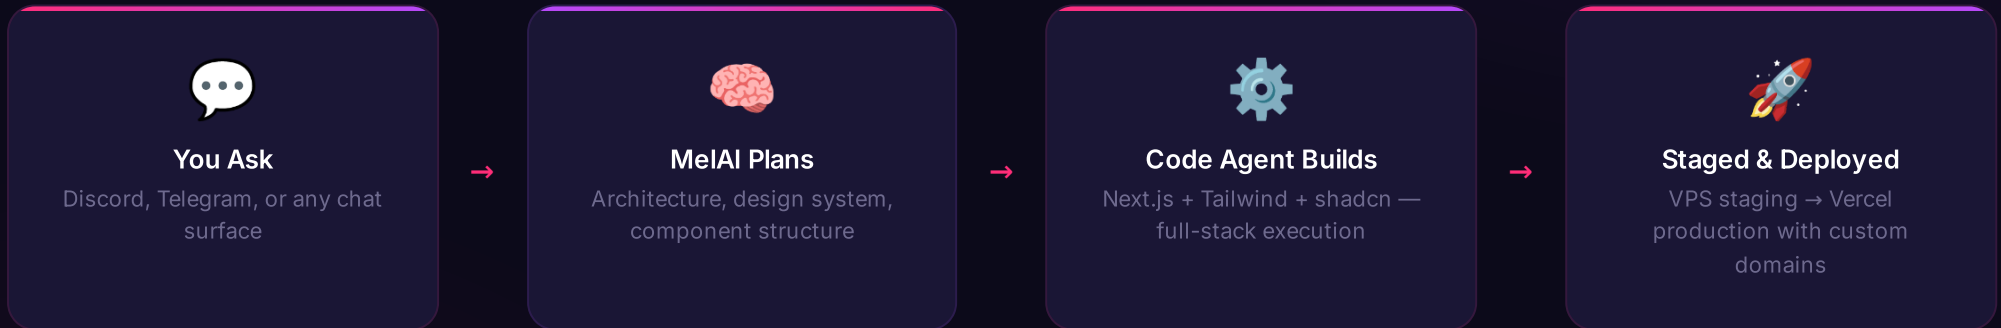

# How MelAI *Produces Outputs*

From idea to deployed product — a look at what your AI builds, ships, and delivers today.

↪ REAL PROJECTS. REAL RESULTS.

01 - THE PIPELINE

# From chat to *shipped product*.

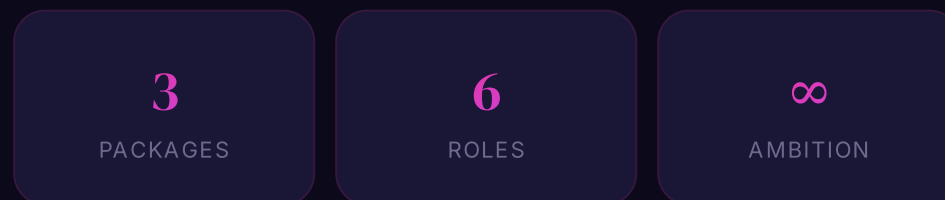

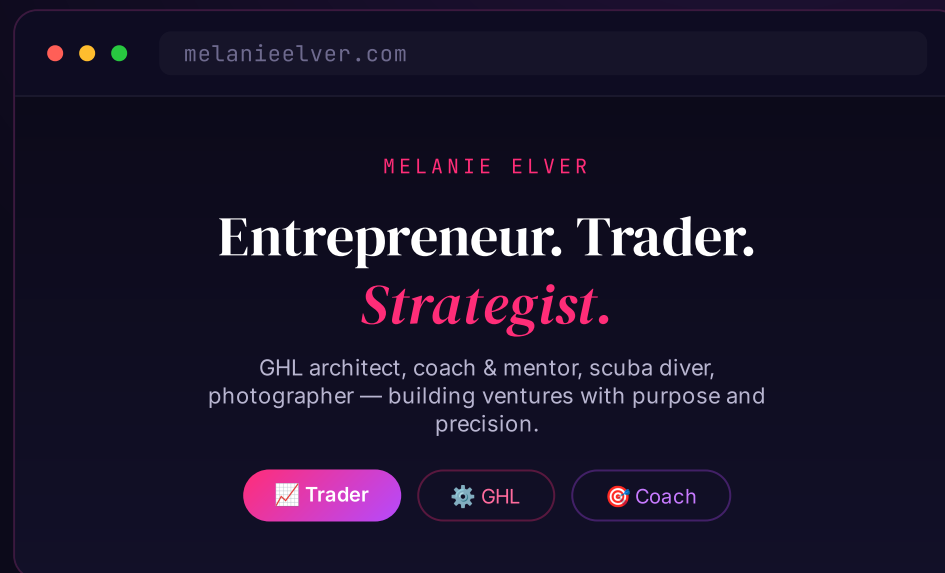

- Next.js App Router
- Tailwind CSS
- shadcn/ui
- Caddy Reverse Proxy
- PM2 Process Manager
- Vercel Deploy

## 02 - WEBSITE

# *melanieelver.com*

Your personal brand site — designed, coded, and deployed by MelAI. Professional portfolio showcasing your services, packages, and expertise.

- **Full-stack Next.js** with App Router architecture
- **Service packages:** Starter, Growth, and Scale tiers
- **Animated tool ticker** — GoHighLevel, Zapier, and more
- **Interactive accordion** for service details
- **Contact integration** with direct WhatsApp + email CTAs

03 - GERMAN TUTOR

# Your *German* language app.

A fully-featured language learning platform with courses, interactive lessons, and a phrase-of-the-day — all built from scratch by MelAI.

- **10 sections:** Hero, courses, how-it-works, pricing, testimonials, FAQ
- **Structured curriculum** from greetings to grammar
- **Daily phrase rotation** for passive learning
- **Pricing tiers** for different learning commitments
- **Full responsive** Next.js with component architecture

## Course Structure

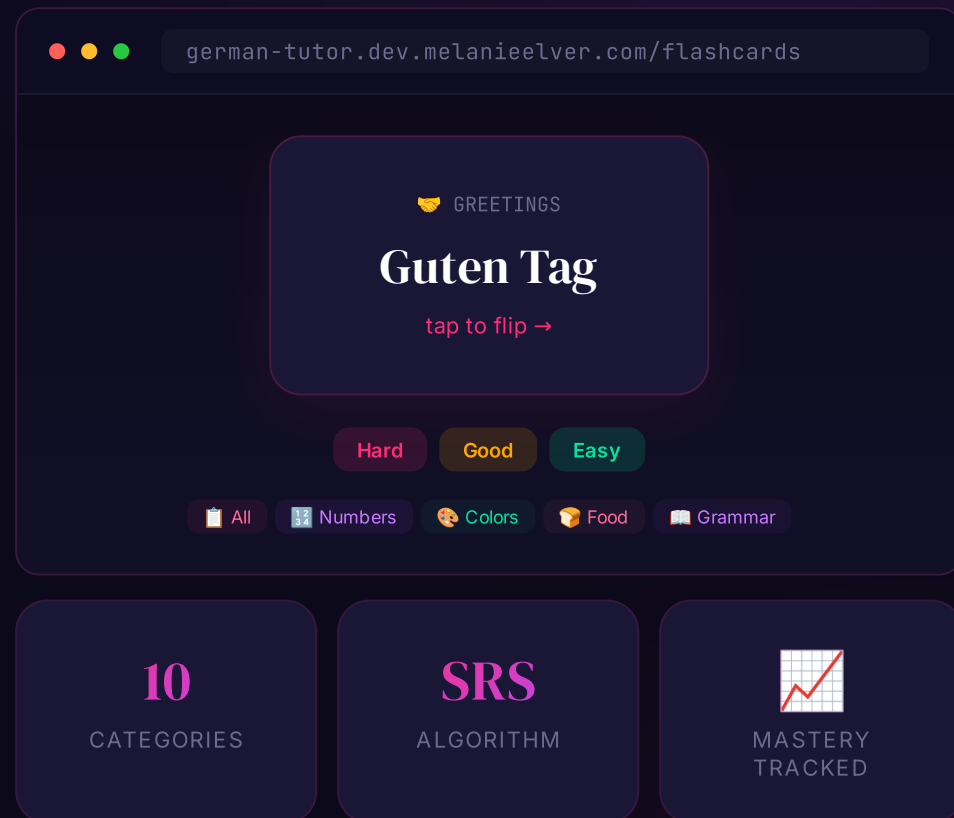

Navbar → Hero → Why Learn German → Courses → How It Works → Phrase of the Day → Testimonials → Pricing → FAQ → CTA → Footer

# *Spaced repetition* that works.

Built-in flashcard system with a real SRS (Spaced Repetition System) algorithm. Not just random cards — it tracks your mastery and prioritizes what you need to practice.

- **10 categories:** Greetings, Numbers, Colors, Family, Food, Animals, Days, Verbs, Phrases, Grammar
- **SRS algorithm:** Difficulty rating → adaptive scheduling
- **Mastery tracking** with progress percentage
- **Dark mode** + mobile responsive
- **Local storage** — progress persists between sessions

# Outputs aren't just *websites*.

## Slide Decks

HTML → Playwright → PDF. Neon Minimal design system. Like this one you're reading right now.

## Image Generation

Imagen 4.0 via Google. Branded visuals, banners, social content — all on-brand.

## Email & Calendar

Gmail monitoring, calendar management, Google Workspace integration via gog CLI.

## Web Research

Real-time search, page fetching, browser automation — stealth mode when needed.

## Multi-Platform Chat

Discord, Telegram — meeting you wherever the conversation is happening.

## Persistent Memory

WAL protocol, daily logs, session state — I remember everything across sessions.

WHAT'S NEXT?

# You dream it. *I build it.*

Websites, apps, slide decks, images, research, strategy — one message away. No waiting. No middlemen. Just results.
